Problem	Zero Shot	One Shot	Two Shot	COT
Movie-Shop	Has different class for catalogue	Hallucinated by including rental features.	Hallucinated by including rental features. Created enumeration for delivery status. Less methods.	Has catalogue included as a list
Flights	Has enums. Has methods	Has enums. Hallucinated for a pilot requirement feature. No methods	Has enums. No methods	Less descriptive. Less structured No enums. No methods
Bank System	Does exactly what is told, no extra member variables. Has methods. Extra Bank class.	Has extra member variables. No methods. Extra commission class.	Has extra member variables. Has methods. No Extra class.	Does exactly what is told, no extra member variables.Has methods. No Extra class.
Hollywood Approach	Not accurate in relationships (1..*)	No important feature missing	Has some additional relations, not sure necessary	Mistake- external scenes cannot have 0 locations
Patient record	Creates an abstract user class.	Nurse and Receptionist classes are missing and important details are amiss	No hallucinations, all relations and attributes appear correct.	Misses on storing the appointments of patients.
Project management	Nothing missing, created an abstract class	Has extra reactions that may not be useful	Nothing missing, created extra class for media and platform.	Again makes extra classes, not necessary
Word Processor	Misses the part to print or save documents, but very easy to understand.	Misses the word detailing, where each word is made of special characters and digits.	Missing the user class,	Misses that words are made of letters, digits and special characters.
